

## Chiba Type Biopsy Needles

### All INRAD® Chiba Type Biopsy Needles:

- Crystal clear hub
- Color coded according to gauge
- Beveled outer cannula provides excellent collections
- Available with AccuMark® Sheath for easy depth marking

### SampleMASTER® Series has these additional features:

- SureStop® depth marker that stays where you put it
- Locking hub for ease of handling, no stylet and cannula separation until you want it
- Depth marks etched on cannula
- Palpable alignment markings on hub for easy orientation
- Optional HiLiter® Ultrasound Enhancement, extremely visible
